Subject: Comments on RM-10413

I fully support RM-10413 and encourage you to act favorably on this ARRL petition. I have been an amateur radio operator for over 35 years and would greatly enjoy having additional band allocations for radiotelephone and CW.

With the growing amount of digital communication, our band space is valued and should be utilized to the fullest extent possible. I would also enjoy the use of additional frequencies that my radio station is prepared to operate on.

I feel that Novice amateurs will be responsible and that good amateur practice will prevail should you grant the use of the proposed radio spectrum for use by all licensed amateurs.

Thank you.

Paul A. Passman
